About this course

Overview

The Microsoft Security, Compliance, and Identity Fundamentals course enables you to gain knowledge of Microsoft security, compliance, and identity (SCI) solutions and how Microsoft SCI solutions provide holistic, end-to-end cybersecurity capabilities.

In the Microsoft Security, Compliance, and Identity Fundamentals you will:

- Learn about the concepts of security, compliance, and identity.
- Learn about the capabilities of Microsoft Entra
- Learn about the capabilities of Microsoft security solutions.
- Learn about the capabilities of Microsoft compliance solutions.

SC-900 Course Agenda

Learning Path 1 – Describe the concepts of Security, Compliance, and Identity

Learning Path 2 – Describe the capabilities of Microsoft Entra ID

Learning Path 3 – Describe the capabilities of Microsoft Security Solutions

Learning Path 4 – Describe the capabilities of Microsoft Compliance Solutions

AZ-900T0X (CS) - Microsoft Azure Fundamentals (Cloud Share)

This course provides foundational knowledge of cloud concepts, core Azure services, and Azure management and governance tools. You'll learn to describe Azure architectural components and services, including compute, networking, and storage. The course also covers features and tools to secure, govern, and administer Azure environments. Prior experience in areas such as infrastructure management, database management, or software development is beneficial for success in this course.

Total available time:	16 hrs 30 mins

Your current Lab

7. Implement an Azure IoT Hub

In this lab, we will configure a new Azure IoT Hub in Azure Portal, and then authenticate a connection to an IoT device using the online Raspberry Pi device simulator. Sensor data and messages are passed from the Raspberry Pi simulator to your Azure IoT Hub, and you view metrics for the messaging activity in Azure Portal.

Login

☐

1. Hello Thomas on SEA-Dev, click Ctrl+Alt+Delete to activate the Ctrl + Alt + Delete sequence and bring up the logon page.

Any links like the one above will send Ctrl+ALT+Delete to the selected machine. This can also be done through the **Commands** menu (lightning bolt in the upper-left hand corner of the screen).

☐

2. Sign in as T Admin with the password T Pa55w.rd.

Download Lab Files to Desktop

Click **Next** to proceed to the **Lab**.

Get the most out of your Microsoft Learn profile

Verify, track, and share your training and certification progress and accomplishments—*all on one platform*

- Claim your achievement code for this course and share you have completed it.
- Access your course material and track progress on your learning activities.
- Share and verify your Microsoft Certifications via email, on social networking platforms, and on your résumé.
- Download and print transcripts and certificates.
- Manage your upcoming activities and certification exam appointments.

www.aka.ms/MyMicrosoftLearnProfile

Create your Microsoft Learn profile at learn.microsoft.com

- Select *Sign in* at the top, right corner of any Microsoft Learn page.
- Follow the Microsoft account authentication process.
- If the account that you have chosen to sign-in with doesn't already have a Microsoft Learn profile, you'll be guided to create one.

Celebrate your accomplishments and feel empowered

Get your achievement recognized and earn your badge for completing this course

aka.ms/MyMicrosoftLearnProfile

1. Go to **Achievements** on your Microsoft Learn profile
2. Redeem the code provided by your trainer
3. Find your new badge **on Modules, Courses & More**
4. Share your new achievement with your professional network. You can also download and print your certificate.

Become Microsoft Certified

92%

of certified IT professionals feel more confident
in their abilities after earning certifications¹

Get recognized by earning industry validation for technical knowledge. Ensure you stay current with the necessary skills and expertise for continued success.

Get ready for your Microsoft Certification exam

Exam SC-900: Microsoft Security, Compliance, and Identity Fundamentals is targeted to you, if you're looking to familiarize yourself with the fundamentals of security, compliance, and identity (SCI) across cloud-based and related Microsoft services.

Understand the skills measured by the exam

Study area	Percentage
Describe the concepts of security, compliance, and identity.	10-15%
Describe the capabilities of Microsoft Entra.	25-30%
Describe the capabilities of Microsoft security solutions.	25-30%
Describe the capabilities of Microsoft compliance solutions	25-30%

Percentages indicate the relative weight of each area on the exam
The higher the percentage, the more questions you are likely to see in that area

Build confidence in your skills

Find in the exam page resources to help prepare

- Watch exam prep videos
- Review the exam study guide
- Demo the exam experience with the exam sandbox
- Take a practice assessment
